

Greenways Academy will open our Saint Louis Learning Center for the fall semester. We will be following the guidelines issued by the State of Missouri and Saint Louis County. **If you are not comfortable coming to our learning center, we will arrange for you to meet with your teacher via Zoom sessions.**

We ask that parents monitor their children for the following symptoms, and if any are exhibited, that the student not come to school and that parents contact their healthcare provider.

- Fever or Chills
- Cough
- Headache
- Muscle Aches
- Nausea, Vomiting or diarrhea
- New loss of taste or smell
- New runny nose or congestion
- Shortness of breath or difficulty breathing
- Sore throat
- Close contact with a person with COVID-19 in the last 14 days

Steps we will be taking to protect students and staff

- We will be pushing out a health questionnaire to each student nightly asking them to respond before coming to the learning center.
- Masks will be required inside of the building. (we have paper masks)
- Hand sanitizer in each classroom
- Temperature taken (via forehead thermometer) upon entering
- Plexiglass dividers in each classroom
- Our classes are a class of 1, so there's plenty of room for social distancing
- Regular cleaning of public spaces.
